The day care centre "Krone" is located in the city centre of Karlsruhe. The centre offers a full-day childcare from 6.30 to 17.00 for around 50 children from the age of 1 to 6.

A various program for the children is offered: besides playing together, they can experience themselves by playing and working with art and colours, doing sports, by being curious in experiments and natural sciences, playing theatre or doing handicrafts. The children are always accompanied by the educators. The main goal is that the interests of the children are being supported by the educators and the volunteers. Additional excursions to museums, the city, parks or playgrounds and cooperations with other institutions take place. The day care centre is open to all children, no matter what nationality or social background they have. The children meet for breakfast and lunch in the kita, where you'll support them as well.

The aim of the kita is to support sport and physical activities for the children. The day care centre "Kita Krone" has a long-term experience in working with local volunteers in its organisation. The team, which is mixed of different nationalities, offers an exciting working area for European Volunteers.

The tasks of the volunteer are supporting the educators in one group of children in their daily activities, supporting the kitchen (preparing, cleaning breakfast and lunch), but as well realizing his/her own project with the children.
