I am Caner writing this report for the 2-weeks volunteering project I have attended in St. Quentin, France.

In the first couple of days, we have played some games to learn each others names and to knit up. We ate couscous at the Youth Center and listened to live music. We went to a concert which is a tradition for the inhabitants. Also, we knocked about the zoo where we work as well.

In the weekdays, we have constructed 3 pools for the turtles in danger of extinction. We have worked 5 hours per day from 8 a.m. to 1 p.m. and gave a break for about 30 minutes. We have used bicycles for the commute. There were some experienced people who have helped us throughout the construction. In between times, we have traveled the city and attended some activities. Also, we visited Paris at the weekend.

Last thing I want to mention is that we have done everything like cooking, cleaning, washing the dishes, etc. as a group and I think that was one of the most efficient ways to learn about other cultures.

It was an unforgettable experience for me. Thanks for everyone who made this possible.
